

Principle behind the Remedial Measures:

What was denied and withheld from you by God in ‘His Mood at the time and place of birth’ [for this is what your Horoscope actually is] as a result of His wrath, in certain spheres of life; can be earned later in life, through the auspicious application of the power of consciousness, which is the greatest asset, man has.

The tools of this power of consciousness are ‘Thought, and Feeling, in the form of Imaginative Pictures and Words’ and ‘Deed, expressing a Samkalpa or Intention’ is another powerful tool that man has been blessed with.

With these powerful tools [which are also His blessings given to all humans], what could not be obtained through grace and blessings at the time and place of birth, can now be earned through the diligent and dedicated application of these powers and tools. These tools will help to manifest an aspiration, provided there is dedication, devotion, sincerity and at best faith in God, and at worst at least faith in the power of consciousness.

If the following Remedial Measures can be taken up, much good will come into life-but again, this will be possible only through your *Samkalpa*. So far as *Samkalpa* is concerned, ‘the Mood of God at the time and place of your birth’, has given you the blessings for taking such a *Samkalpa*, to the extent of some%.

Man already has the following powers inherently in his consciousness, as a blessing from God. Harnessing these latent powers in the prescribed fashion, we may create the “second wealth of Grace” or the “second line of Grace”, as the “first wealth of Grace” or the first line of Grace”, in the mood of God at the time and place of birth, which has been bestowed at birth itself, has been discovered to be inadequate.

The said powers are:

Power of Faith in God,

Power of devotional feeling towards God,

Power of the word, used in Chanting, speaking, etc,

Power of Samkalpa[Intention],

Power of Mantra recitation,

Power of Propitiatory Charities to the Deities[Navagraha Devatas],

Power of Gem stones,

Power in thought and aspiration, etc.

In the Remedial Measures prescribed below, all these powers, at man’s disposal are gathered together and put through their paces, in order to create the “second wealth of Grace” or the “second line of Grace”.

When you make prayers to Sri Sri Amma Bhagvan, you are in fact, creating the second line of Grace.
