

Feedback on the Course:

My passion for Vedic astrology began during 1985. I vividly remember that pleasant day when I met Guruji at Somangalam during 1991. Guruji, at that time was conducting spiritual retreats. Later my spiritual journey started with Guruji's guidance from 1993 onwards. Fortunately, God blessed me to travel with Guruji in the path of Vedic astrology from 22nd Feb 2010.

I would like to share my feedback with respect to this amazing Course:

- Before this course, my journey in Vedic astrology was very tough and was a bit uncomfortable. I had to look for alternate methods (my intuition, palmistry, numerology) for predictions, to compensate my lack of knowledge in astrology. Now, after this Course, I feel at ease with chart reading.
- From this Course, I acquired logical approach for analyzing and predicting the charts.
- Before joining this Course, there were many cases for which I could not get a logical answer. I applied my new learning on these charts and found the impeccable nature of these sutras and the approach.
- Prudent combination of Systems Approach[SA] with Vedic Astrology[VA] forms a powerful technique for chart analysis and prediction .
- Openness for continuous learning is the major advantage of this Course. Frankly, Guruji is a hero for me for his wisdom, integrity, openness and knowledge sharing without a trace of ego. No doubt, these qualities are completely reflected in this Course.
- The great array of horoscopes provided in the Course helps deeper understanding of the sutras and approach.
- The examples of actual counseling shared in the Course helped me to form a better perception of how Guruji guides his clients astrologically and spiritually.
- Guruji has inculcated in me the understanding that Astrology is completely God centered and is an *Ishvara Vidya*. I sincerely follow the approach that studying each chart is like getting into the temple of God (as Kaala purusha).
- I was immensely benefited spiritually and psychologically as this Course throws lot of light on our nature, as designed by the Divine. So it helps me to be aware of my nature (and not to judge myself). It also helps me a lot in counseling others and relating to others with love.

- This course and interactions with Guruji have given me the conviction that, astrology as *Isvara Vidya* is the path to my *moksha* . Somehow, I feel like a child, strolling with my eternal father, *Isvara*, each time I study a chart. This gives me a strange confidence and trust that this entire creation belongs to our loving father *Isvara*.
